PAPERSPACE™

POWERED BY **NUEVOPAK**™

X-FILL™

The X-Fill™ System is the best way to dispense paper void fill. It's one of the most efficient and user-friendly paper void fill systems on the market. X-Fill delivers high throughput speeds with low maintenance and downtime. X-Fill is available in two configurations: a floor model and a table-top. Both adjust to a range of customized heights and angles to handle even the most challenging packaging environments.

X-PAD™

The X-Pad™ Paper Cushioning System has a revolutionary small footprint and rapid throughput. Paper speeds run at approximately 180 feet/minute. It is equipped with four modes of control and features a large touch screen for simple operation. It is ergonomically designed to easily adjust the angle of the paper output.

The X-Pad comes in two highly productive configurations: a floor model and a table model. Both can be used with various paper basis weights, single ply and double-plies. The table side stand has a unique design that maximizes workstation space. The X-Pad paper bundle design allows for incredibly fast paper loading.
