

POLYAIR

STARFOAM

STANDARD AND ANTI-STATIC FOAM CUSHIONING

Starfoam is highly flexible and perfect for surface protection, interleaving and cushioning. It is non-abrasive and will not scratch finely finished surfaces and is moisture repellent providing superior protection against water, grease and solvents (below 130°F). Starfoam roll stock is available in both standard and anti-static form and can be converted into custom sheets.

FEATURES & BENEFITS

- 100% low density polyethylene (LDPE) makes Starfoam a highly flexible wrapping material
- Diverse packaging alternative for surface protection, interleaving and cushioning
- Non-abrasive material provides excellent surface protection and will not scratch or damage finely finished surfaces
- Lint and dust free foam can be safely used to protect highly sensitive products
- Closed cell construction means Starfoam repels moisture and is inert to water, grease and solvents (below 130°F)
- Foam is lightweight and re-usable, resulting in reduced package weight and lowered production / shipping costs
